

## **B-I-T-C-H**

“Bitch” can be played as a game format or a side game. This game is played using dotted cards and net scores. The object of the game is to spell “bitch” as many times as you can in 18 holes. To do this you must win a hole by having the lowest *net* score. Every time you achieve that feat you win a “letter”. If the hole is “halved” (tied) no one gets a “letter”. So you need to win at least 5 holes to spell B-I-T-C-H.

Payouts to the winners can be done using either of these methods:

1. Play within your foursome- pool the foursomes bets and divide it by the number of “bitches”. If someone spells “bitch” twice then it counts as 2 bitches, 3 times counts as 3 bitches.
2. Play across the entire field- pool the fields bets and divide it by the number of “bitches”. If someone spells “bitch” twice then it counts as 2 bitches, 3 times counts as 3 bitches.

Variation: If someone spells “bitch” 3 times in 18 holes then they win *all* the money.
