

## **Steps**

Steps is a team competition with each member playing their own ball throughout the 18 holes. The team consists of members in your pairing group. In this game we have three types of steps: big steps, normal steps, and baby steps.

Big steps are the par 5's where the team uses the lowest net score on the hole as their team score. Normal steps are the par 4's where the team will combine the 2 lowest net scores for their team score. Baby steps are the par 3's where the team will combine the lowest net score and the highest net score for their team score.

The winning team is the team with the lowest team score. Option, pay multiple places.
