

Boxers or Briefs

Boxers or Briefs can be a game format or a side bet. It is an 18-hole individual stroke play event in which only 9 holes are used to determine the scores. Before the round begins the player will choose which nine holes they will score better on, version 1: “boxers” (odd # holes) or “briefs” (even # holes); version 2: “boxers” (front 9) or “briefs” (back 9). Add this wrinkle for 3rd option, “Commando” (the same on both) and double their winnings.

Boxers or Briefs & Tee Shirts or Tank Tops

Before the round begins the player will choose which nine holes they will score better on. **Boxers** being the **odd** holes and **Briefs** being the **even** holes. Next the player must choose whether their total score on that Boxers or Briefs choice will be an odd number or an even number. **Tee Shirts** being the **odd guess** and **Tank Tops** being the **even guess**. To win they must get both answers or guesses correct.
